WHO WE ARE

The Lemon Tree Collective is a grassroots initiative that supports **families that have been displaced, impoverished or made extremely vulnerable**. We are currently focusing on families affected by the ongoing genocide in Gaza, Palestine.

The project was founded in 2024 by Helen Fares to **evacuate sick children and pregnant women from Gaza** and is currently working on three projects in Gaza, Egypt, and Syria, as evacuations have unfortunately been made impossible by the Zionist occupation.

- Our main project is located in **Gaza**, where we are currently providing **over 120 families** who have been affected by poverty and hunger as a result of extreme Zionist violence with access to **food, medicine and tents**. In **Khan Younis**, we run **a school program for children**.
- In **Egypt**, we provide safe **shelter** and emergency **medical aid** to **over 30 displaced families** from Gaza.
- In **Syria**, **over 200 families** who have lost their livelihoods as a result of the war are regularly supplied with **food packages**.

DONATE NOW

To keep our projects going in the long term, we urgently need monthly supporters.

With **just €10 a month**, you can help us buy food, baby food, tents, and many other items to support families.

Scan the QR code and become a monthly supporter today. Thank you.
